The context does not provide information about compliance automation platforms, challenges faced by companies in the compliance process, or the role of AI in solving compliance problems.

The next revolution in Artificial Intelligence will likely build upon current foundations, pushing towards more autonomous, integrated, and truly intelligent systems. Some strong contenders are Agentic AI, True Multimodal AI, Scalable and Efficient "Small AI," and Neuro-Symbolic AI.

Some movies to watch are Dune: Part Two (2024), Anora (2024), Poor Things (2023), Oppenheimer (2023), Killers of the Flower Moon (2023), Past Lives (2023), The Holdovers (2023), Spider-Man: Across the Spider-Verse (2023), The Brutalist (2024), Conclave (2024), and Mission: Impossible - Dead Reckoning Part One (2023).
